

Sustainability: People, Products, Planet

Axiall Corporation is a global provider of chemicals and building products, working to responsibly harness applied chemistry to solve common problems, improve everyday life and drive human progress.

We're dedicated to the pursuit of best-in-class safety and environmental performance, while preserving and enhancing life in the communities where we operate. Take a look at some of the ways we did that in 2015.*

PEOPLE

PRODUCTS

WHAT WE MAKE

In our Chemicals division, we transform products from nature — salt, water and natural gas — into chlorine and caustic soda, which become essential ingredients for many life-enhancing products. Axiall's chemical products can be found in high-performance plastics, pulp and paper production, packaging, chemical intermediates, paints, and medical and agricultural applications.

COMPLIANCE & TRANSPORT

In 2015, Axiall produced and shipped

Shipments of raw materials and finished products continuously flow in and out of company facilities, and Axiall is committed to ensuring this flow of materials meets safety and regulatory requirements.

In recognition of Axiall's commitment to the safe transport of products, the company received three awards from railroads in 2015: the CSX Chemical Safety Excellence Award, the Kansas City Southern Hazardous Material Shipper Safety Award and the CN Safe Handling Award.

CUSTOMER AWARDS

Axiall was selected as supplier of the year by three customers in 2015:

- Draka Elevator Products
- Legrand, Pass & Seymour
- Mississippi Polymers

PLANET

PROTECTING OUR ENVIRONMENT

RESPONSIBILITY

Doing what's right for the environment

Axiall is actively engaged in efforts to improve environmental conditions in the communities where it operates.

Axiall operates and maintains its facilities according to the American Chemistry Council's Guiding Principles of Responsible Care.
